What

The Wheelchair Relay is a community fundraising activity where individuals, families, friends, businesses and co-workers for the past 20 years have come together in support of individuals with SCI and other physical disabilities.

Why

Through a corporate sponsorship, your company will gain exposure to the community as a proud supporter of Spinal Cord Injury Saskatchewan. Additionally, you support our goal towards building an inclusive and accessible community for persons experiencing physical disabilities.

SCI Saskatchewan has been a force for clients with spinal cord injuries and other physical disabilities since 1964. Over the intervening decades, the team of professionals and volunteer experts at SCI Saskatchewan have been working together to provide core services such as counselling, peer support and transition service to individuals and their families. SCI Saskatchewan provides a full range of individualized holistic, client-centered services including, but not limited to, advocacy, vocational services, and information on health self-management, accessible housing and transportation, recreation and education choices when the individual returns to his/her community.
